[www.southampton.gov.uk/roads-parking/transport-policy/cycling-strategy.aspx](http://www.southampton.gov.uk/roads-parking/transport-policy/cycling-strategy.aspx)

Initial thoughts?

Plan was discussed throughout meeting especially on how it impacts ongoing issues

All members are encouraged to read it and any questions about it to be sent to Jon Bingham to be raised with SCC

3 - Bicycle design Hub meeting

18<sup>th</sup> July 4pm – Jon to attend with +1

Pete Davis to attend but needs to check diary or John Heath if Pete is not available

AR Pete will check diary and let Jon know

4 – July Cycle Forum Cancelled

New date for 22<sup>nd</sup> August

Items for agenda to be sent to Jon or Linsi who will pass on to Dale

AR - Jon will email members for ideas for discussion at Forum

5 – Membership

2016 we had just over 100 full members

2017 so far it is just 72 full members (including family members) and 30 associate members so still over 100

Long term our plan is to have as many members as possible so that we can represent as many cyclists as possible within Southampton. We are also using a mailchimp mailing list to sent out news letters and surveys.

AR - Jon will contact lapsed members to double check that they are aware of the new membership options

AR – Jon will email Sue updated list from online membership list

6 - Winchester Road

Problems turning out of Dale rd and safely getting to bicycle lane on Winhester rd. Bike would have to leave ASL turning left and stay in front of cars while maintaining primary position or RHS position possibly risking being undertaken while cycling the 15-20m to the bike lane

Hatching should be removed and lane extended West to start opposite ASL allowing cyclists to enter bike lane more safely

Problems with cars using bike lane to turn right into The Range heading straight towards cyclists coming east up the hill.

Design is OK to Wilton rd, but needs to be more visible west of this – paint green or red for full length of bike lane including across the turning for The Range

AR – Lyn to email this to Dale so that this can be remedied while the route is still being finished

6a – Road maintenance – potholes and road surfaces for cyclists as requested by Dale

AR - Pete to dig out detailed information submitted to council by Simon Hill as a reference

AR - Jon to raise this at cycle design hub meeting

7 – Portsmouth Symposium – Cycling and Society

- <http://www.cyclingandsociety.org/2017symposium/>

Angela van der Kloof, who showed us around Delft, is speaking at it and has offered to run a workshop/give a talk in Southampton while she's here. She works for Mobycon

Cycle Campaign would like to host an event with Clean Air Southampton where Angela can give a talk along with some presentations by the people who were on the Dutch cycling trip including councillors.

We could also use this as an open forum to discuss the 10 year cycling plan – 7-8 September?

AR - Jon to work with Liz batten to organise a date

8 - Womens Festival of Cycling - <http://www.cyclinguk.org/womensfestivalofcycling>

Breeze women only rides

Does campaign wish to do a ride in July?

No action required.

Break for Tea and coffee

9 - Lovers Walk & Common

Campaign responded positively to widen the majority of Lovers Walk

Lots of negative responses to consultation from local residents groups, some of them justified others not

Jon has offered to have an open discussion with these groups to try to find some common ground where we can agree and work together for the benefit of all residents

AR – Lyn to contact Gerry Gillam (not sure of spelling) and Simon Hill to suggest a meeting in August

10 - Update on Dale's request for badly maintained routes

Jim & Lyn compiled list from other members and sent to Dale in June.

AR - Jon to ask what criteria they are going to use to assess the state of repair of cycle routes at Cycle design hub meeting

11 – Dutch Trip

Hugh Davis our Vice Chairman and Liz Batten a member and co-creator of Clean Air Southampton went on trip to Netherlands to learn about cycling infrastructure, bike culture and liveable cities. For the record this trip includes, members of the cycling campaign, members of clean air Southampton, two current councillors, Megan from Sustrans, Jo-Anne from British cycling and Iain Steane the author of the 10 year cycling plan - so let's hope they come back full of ideas and enthusiasm for great cycling infrastructure.

AR – Work with Liz from Clean Air Southampton to create an open meeting to discuss cycling in Southampton

12 – Website

Need agreement on next steps

Must be mobile and tablet friendly

Jon and David to chat with Rob Jordan to see if we can get a better design using Wordpress. If not possible then we will need a commercial host with simple design tools.

New/updated website must be completed by early Sept.

AR – Jon to contact Rob to ask about technical options for current wordpress site and also to look at commercial options

13 – Constitution

Jon needs help finalising wording and with proof reading etc

AR – Jon to send draft copy to several members for feedback and to create a final draft

Any other Business
