Attended by Pete Davis, Jon Bingham and Hugh Davis and Colin McQueen from Clean Air Southampton  
Overview – Western Cycle Corridor

Consultation role – Western Cycle Corridor - 3<sup>rd</sup> Avenue

3<sup>rd</sup> Avenue will become 1 way with 3.5m of road being turned into a two way cycle lane. However there are ongoing discussions about whether the cycle lane should be on the north side away from the business entrances or on the south side so it crosses the business entrances. Campaigns preferred option is on the north side, but this may cause problems for large HGV's to access business premises because of narrow turn radius.

The basic problem that HRA have with people cycling on Lovers Walk is that it can cause conflict with pedestrians. Campaign agrees that this route shouldn't be a cycle superhighway, but current plans to widen this route and mend the broken surface will improve safety for pedestrians and cyclists, so we support this scheme.
